DEMOCRATIC

STATE CONVENTION.

PURSUANT TO THE ACTION AND ORDER
of the Democratic State Central Committee of
the State of Nevada, a Democratic State Con-
vention will be held at

ELKO,

ON

THURSDAY, SEPT. 9, 1886,

At noon of that day.

Such Convention will consist of one hundred
and twenty-five (125) delegates, apportioned
among the several counties of the State as fol-
lows:

Churchill.....	2
Douglas.....	3
Elko.....	3
Esmeralda.....	3
Payson.....	3
Humboldt.....	3
Lander.....	3
Lincoln.....	3
Ely.....	3
Nye.....	3
Ormsby.....	3
Storey.....	3
Washoe.....	10
White Pine.....	7
Total.....	125

Such Convention is called for the purpose of
nominating a full State Ticket to be voted for
at the next General Election, as follows:

Member of Congress,
Governor,
Lieutenant Governor,
Secretary of State,
Justice of the Supreme Court,
Clerk of the Supreme Court,
Attorney General,
State Controller,
State Treasurer,
Surveyor General,
Superintendent of Public Instruction,
State Printer,
Three District Judges.

The appointment of a State Central Committee
and for the transaction of such other business
as may properly come before the Convention.

The following test will be required of voters
at the primaries to be held to elect Delegates
to said Convention: "Are you a Democrat, and
will you support the nominees of the Demo-
cratic State Convention of 1886?"

The several Democratic County Central Com-
mittees are requested to call Primary Elections
to elect Delegates to the State Convention on
SATURDAY, AUGUST 22, '86.

J. C. HAGERMAN,
Chairman Dem. State Central Committee.
HARRY P. FLANNERY, Secretary.

CONDITION OF THE STATE

Report of Surveyor General Powling on its Condition and Prospects.

In his annual report for the fiscal year ending June 30th, 1886, to Hon. Wm. A. J. Sparks, Commissioner of the General Land Office, U. S. Surveyor General Powling says of the condition and outlook of Nevada:

The condition of the State has not materially changed since my last annual report, but what change is apparent is for the better, and I firmly believe Nevada has seen its darkest days. The mining outlook is full of encouragement, and the most experienced of our mining men have great faith that there will soon be another boom in Nevada mines. Within the past few days ore has been found on the 3,200 foot level of the Ohollar mine, Virginia City. The very fact that a development has been made at such a great depth inspires renewed confidence in the belief that there is an immense ore body in some one of the mines in the middle group of the grand old Comstock lode, and that all that is required to demonstrate it is a combined and vigorous prosecution of the work now in progress. The old lode is doing well, as it is. The daily output of ore averages one thousand tons, and although it does not contain as much of the precious metals as in the so-called bonanza days, it is the cause of giving employment to thousands of persons. The payrolls of the mines and mills aggregate nearly \$250,000 per month, or three millions of dollars per annum. The yield from the ore is about equally divided between gold and silver. The bullion output of the State for the past year attained the respectable sum of ten millions. The Paradise mine, in Humboldt county, has made a remarkable showing of late, paying dividends with regularity, and recent developments stamp it one of the best outside properties in the State. There is a great deal of mining going on in Elko, Humboldt, Lincoln, White Pine, Eureka, Lander, Churchill, Nye, Esmeralda, Douglas, Lyon and Washoe, any reports from these sections indicate that Nevada will soon come to the front as the best mining State in the Union. In addition to the favorable prospects from the mines now being worked, the hope of the future springs from the certainty of the establishment of reduction works at Reno, which are expected to be in operation within the next six months, and which will not only save to the State the shipments now being made to San Francisco, Salt Lake and Denver, but will enable our prospectors to develop properties now idle, because of cost of transportation, etc., to places where the ore can be reduced. Just as soon as reduction works are in full blast, and the miner can have a market for his ore, as the farmer has for his hay or wheat or potatoes, the State will progress at an astonishing lively rate, and will surprise the world with her production of the precious metals. That day is very near at hand. The cattle interest continues to be prosperous and profitable. It has become next to mining, the mainstay of the State. The capital invested is fully fifteen millions of dollars. There were shipped last year 60,000 head, of the value of over two millions of dollars. There is no spot on the face of the globe better adapted to stockraising purposes than the best of country in Nevada north of the Central Pacific Railroad. Nevada beef is not surpassed anywhere. Sheep husbandry has been industriously followed by those who are engaged in it, and with satisfactory results. Various other, but minor, industries have been reasonably profitable during the past year. Our farmers have been favored with good crops and are happy and contented. Each year sees a larger area placed under cultivation, especially where it is possible to get water to irrigate the lands. There are many thousands of acres of land that would prove as productive as mortal could wish if water could be carried onto them, and some day, it is to be most devoutly hoped, that the General Government or the State, will devise some plan whereby the natural waterways of the State can be improved and reservoirs constructed, to husband the valuable drops, artesian wells sunk to find the subterranean passages from which will flow that which will make the desert blossom as the rose, or vast canals dug to carry from place to place the precious water now going to waste. Meantime the people of Nevada enjoy good health, have good schools and churches, intelligent and refined society, and would not exchange places with any other set of human beings in what some say are more favored localities.

We are in receipt of the Grand Army edition of the Hollister Free Lance. It has a fine colored lithographic cover and contains useful information regarding San Benito County, its resources and the surrounding country.

EXTRADITION TREATY.

A Document Which Will Check the Travel to Canada.

WASHINGTON, July 17th.—Extreme reticence is maintained at the Department of State in regard to the new extradition treaty between the United States and Great Britain, and a close inquiry fails to extract much information on the subject from that source. All the details of the treaty, however, are well known in diplomatic circles here, and are freely discussed. The treaty was signed at London on June 25th by Lord Rosebery for the government of Great Britain and by Mr. Phelps, representing the government of the United States. It amends the treaty of 1842 specifying the crimes for which extradition can be demanded. The negotiations between the two governments with this object in view have been in progress for nine years. The offenses to which the new treaty will apply are embezzlement or larceny above the sum of fifty dollars; burglary, malicious injuries to property, endangering the life of any person, where such facts are a crime by the law of either the United States or Great Britain, and manslaughter. It is provided that there shall be no extradition for offenses of a political character only. No convicted fugitive criminal shall be surrendered unless a copy of the court record and sentence shall be produced, and his identity thoroughly established. The treaty is to go into effect within ten days after ratification, and can be terminated at the pleasure of either of the contracting parties. The treaty was sent to the Senate some ten days since, but has not yet come up for action in that body. It is thought there will be no delay in its ratification.

Lucky Los Angeles.

WASHINGTON, July 17.—A more fortunate fate than that in store for the San Francisco Postoffice bill awaits the bill appropriating \$75,000 for a Federal building at Los Angeles. Carlisle says that that bill shall come up if there is any opportunity. Markham thinks that if he gets that bill through it will help him to secure his Judicial bill also. There is danger that the President will veto the bill if a Federal court is not established there. This may hasten Edmunds to report the bill, which has passed the House, creating a United States Circuit Court in Southern California.

The street railroad lookout is at an end. The men who succeeded, as well as those who were discharged for intimidation from the City and the North Beach and Mission lines, have resumed their old positions, and peace and happiness reign supreme over the districts that were lately scenes of riot and confusion. Affairs were brought to this satisfactory solution yesterday by the meeting and conference of delegates from the Carman's Association and the Board of Directors of the affected lines. As a result of the conference an agreement was drawn up and signed, setting forth that the North Beach and Mission Railroad company agreed to reinstate drivers and conductors recently discharged from their employ, and bound themselves not to discharge any employee of their line in the future for belonging to the Knights of Labor or any other organization. The Knights of Labor in the employ of the North Beach and Mission Railroad Company agreed not to use intimidation to any employee of the company for the purpose of prevailing upon them to join their organization.

The Carson Index says: When the next Legislature meets and the biennial hub-bub about economy is inaugurated, the taxpayers of the State should, as one man, arise to a question of privilege, and inserting the finger of public opinion in the retrenchment pie, demand that there shall be a reform in the matter of county expenditures. Under the present law the greater portion of the money taken from the people in the shape of taxes goes in this way. Washoe is the most economically managed county in the State, and is also the most prosperous. Ormsby is also getting down to a rational business proposition. In Storey there is room for improvement. Some of the counties of the Great East should also give this question careful and intelligent attention.

WARNING THE HORNS.

Governor West of Utah Issues a Proclamation.

SALT LAKE CITY, July 17.—Governor West yesterday issued the following proclamation:

TERRITORY OF UTAH,
EXECUTIVE MANSION.
WHEREAS, In this Territory an organization of religionists, denominated "The Church of Jesus Christ of Latter-Day Saints," known also as the "Mormon Church," has its head, and from here said body has heretofore sent, and now has missionaries in many of the States of the United States and foreign countries, proselyting to its faith and inducing converts to immigrate to and settle in this Territory, and such immigration has heretofore and continues to come into this Territory; and whereas, said Church in its plans of worship and through its public teachers and press openly proclaim it the right and duty of its members to violate the law of the land upon the subject of marriage; and whereas, the chief officers of that body and its First President are now hiding, awaiting the process of the Courts under a charge of violating said law, and others (prominent members—apostles, bishops and teachers) are confined in penitentiary under conviction and sentence of violating said law; and whereas, a great expense is necessarily involved and our courts continually burdened with trials of offenders against said law;

Now, therefore, I, Caleb W. West, Governor of Utah Territory, while disclaiming all right to interfere with the religious beliefs of any, yet recognizing the duty of all to obey the law of the land, do hereby make proclamation of the foregoing facts, and warn all violators of the law as to the marriage relation that they do incur and subject themselves to heavy fines and imprisonment, and all well-disposed persons from associating themselves with any person or organization for the purpose of immigrating to this Territory to enter into or maintain any marriage relation other than that allowed and sanctioned by the law, or to aid and abet others in so doing.

CALEB W. WEST, Governor.
ARTHUR L. THOMAS, Secretary.

SHORTHORNS.

The following communication was written to the Inyo Register, and explains more thoroughly how the Short-horn stock brings a larger profit than any other:

ED. REGISTER:—I wish to mention in your columns a few plain, common sense facts regarding the improvement of cattle. There is a general feeling among farmers and stockmen that to pay more than \$50 for a sire is the prelude to financial ruin. They go on supplying three-year-old beef steers to the butchers that weigh 500 pounds, and are elated if a few reach 550 pounds, and fail to see that by the expenditure of \$200 to \$300 for a sire that is purely bred, and worth something to their herds, that they could sell two-year-olds as heavy as their three-year-olds now average, saving a year in time and the cost of keeping and all attendant risks for a year. I recently sold thirty beef steers, all three years old but six, which were four years old. Among them was a one-half Short-horn steer, three years old, and in no way superior to the average half-breed steer, that weighed alive, after driving twenty-six miles in one day, 1,284 pounds. The other 29 made an average live weight of 1,049 pounds, and dressed only 50 per cent. of live weight, or 524 pounds, while the grade Short-horn dressed 730 pounds, or 67 per cent. of live weight. He dressed 80 pounds more than the best four-year-old, and 206 pounds more than the other 29 head averaged. This steer ranged in the mountains with the others and fed with them, showing his contempt for the state and false notion that Short-horns cannot rustle for a living, and proving their ability to outgrow other animals under equal conditions. All this is simply the result of using a pure Short-horn sire. This steer did not cost me any more than the others, and on the butcher's block brought me over \$15 more than they did. Now, I should like to ask such of your readers who think they cannot afford to buy thoroughbred sires, how many half-breed Short-horn steers it will take to pay for even a \$500 bull, out of the extra pounds of meat they will dress over and above the animals they are now raising? The first 40 steers raised will cover the price. When there are 40 steers there will be 40 heifers that will be worth \$25 a head more than their mothers as a foundation for further improvements. To all intents the sire is half the herd in determining the force for good or evil within it. No breeder of cattle can afford to use a common sire. To do so is a bad type of economy—a penny wise and pound foolish practice. The man who does not improve his stock will get left. Breed from the best forever, which is the only road to success.
W. J. MARSH.
Fort Churchill, Nev., June 26.

A large band of sheep got into a railroad cut this side of Truckee Friday, when a train came along and ran into them. Twenty or thirty were killed.

AN OBITUARY.

A Brother's Tribute to a Deceased Sister.

Last month the JOURNAL noticed the death at San Francisco of Miss Lizzie Chase, formerly of Reno, and at the request of the mother of the deceased, the following, written for the New York *Sun*, by the dead girl's brother, is reproduced: "It is with sad heart and moistened eyes that we record the flight to her heavenly home of Lizzie Taylor Chase, the beloved daughter of L. T. and Mrs. L. M. Chase, and dearly loved sister of Mrs. Annie L. Connors and Frank H. Chase. The sorrowful event occurred at San Francisco, California, June 7th, of typhoid, after a short illness, despite the most assiduous nursing and the skill of two eminent physicians, Drs. McNulty and McNutt. During the brief 19 years in which she gladdened the hearts of her mother and relatives, she was and earthly angel of goodness. With tender care and loving devotion she for years nursed an invalid mother, who is left heart-broken by her great loss. In character the dear one was most lovely. She was a devout Christian, and was a teacher in her Sunday-school. The funeral services were held on the 9th, the Rev. Dr. Beers, of Trinity Church, officiating. All of the young friends of the loved one, and many friends of the family were present, each with some kindly word of regret, while many reverently placed beautiful floral remembrances on the casket. At the close of the services those present gazed for the last time on the fair young face, which, thanks to the embalmer's art, was as natural as in life. The casket was then gently borne to the hearse by pall-bearers selected from among her companions, and was placed, by kind permission of Judge Quint and wife, in their family plot at Laurel Hill Cemetery. The obsequies were in charge of N. Gray & Co., and were conducted throughout in the most kindly and sympathetic manner. To them and to the Rev. Dr. Beers, Dr. Franklin N. Clark, a noble friend in sorrow, to Judge and Mrs. Quint, to the physicians in attendance, and to many other kind friends, the bereaved family tenders its most grateful thanks."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awt-1y

THE CRADLE.

WINCHEL—At Buntingville, Cal., June 27, 1886, to the wife of F. M. Winchel, a daughter.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans.
ROYAL BAKING POWDER CO.,
new-daw 106 Wall St., New York.

MISCELLANEOUS.

THE GRAPE CURE.

SAL-MUSCATELLE

IN AMERICA

Without the Expense of an European Journey!

The crystallized salts, as obtained in a pure state from grapes and choice fruit, in a portable, palatable, simple form, are now presented to the public of America as the grandest solvent of impure blood, corrector of the liver and regulator of the bowels—the natural promoter of

HEALTH AND LONGEVITY.

Eminent physicians claim this achievement a new era in the allied science of medicine, as it furnishes the blood with its natural salines that are lost or eliminated every day.

Sal-Muscetelle

A POSITIVE NATURAL

SICK HEADACHE and

DYSPEPSIA CURE.

Sal-Muscetelle is Nature's own product. It supplies to the system the want of sound, ripe grapes and fruit, it is the simplest and best preventative and cure for all functional derangements of the liver and its kindred ailments; prevents the absorption of malarial diseases—fevers of all kinds; counteracts the effects of bad air, poor drainage and impure water; a powerful oxydizer of the blood; a natural specific for all skin eruptions, sick headaches, biliousness, nervousness, mental depression, and will remove the effects of accidental indigestion from excessive eating and drinking. Have it in your homes and on your travels. It is a specific for the fagged, weary or worn-out. Prepared by the

London Sal-Muscetelle Co.

LONDON, ENGLAND.

Beware of imitations. The genuine in "blue wrappers only."

TOWN AND COUNTY.

BREVITIES.

The late rains have made the river very muddy.

One of Sol. Levy's little ones has the scarlet fever.

Secretary of State Dornier was in town Sunday evening.

Dr. Bergstein returned from San Francisco yesterday morning.

Brewster Coffin and party were camped at Donner Lake Sunday.

Nashby's thermometer at 7, 9, 11, 1, 3 and 5 registered 70, 76, 78, 72, 70.

The overland train due here last night from the East will take breakfast here this morning.

Senator Pierce, of Humboldt, was in town yesterday, as was also Bank Commissioner Cassidy.

Wm. Daley, formerly of Carson, died at Stockton, Cal., on Friday from the effects of a sunstroke.

It rained off and on nearly all afternoon yesterday—which is the ninth or tenth day it has rained.

Dr. W. L. Marsden, formerly employed at the Nevada Insane Asylum, is now in Idaho Territory.

Captain Gosse, of the National Guards of Virginia City, came down on the V. & T. train Sunday evening.

It is estimated that over 300 tons of hay have been destroyed by rain on the Truckee Meadows during the past week.

Governor Adams came down from the Capital Sunday evening, and left for the eastern part of the State yesterday morning.

Parry & Fitzgerald are decorating the Depot in honor to the G. A. R. boys who will pass through here during the next month.

The shower of yesterday afternoon was the hardest of the season, and cooled the atmosphere off to a considerable extent. The storm was noticeably severe north of us.

Senator Stewart came down from Carson Sunday evening and left for Winnemucca yesterday morning, where he was to have spoken on the issues of the day last evening.

Tuscarora is circulating a petition to present to the Board of County Commissioners asking them to allow that town to incorporate under the Act providing for town governments.

Company K, of the first U. S. Infantry, under the command of Lieutenant Strothers, on their way from Camp Verde, Arizona, to Fort McDermitt, passed east yesterday morning.

Secretary Stoddard is already receiving letters requesting him to reserve space in the pavilion for the display of articles at the State Fair this Fall. One firm has written for 15x35 feet.

The Modoc Independent says the Infantry company which has been stationed at Fort Bidwell, has been ordered to Arizona, and the Infantry quarters at Bidwell are now deserted. How long they will remain so is not known.

The old steamer of the "Yellow Jacket, No. 2," fire company, of Gold Hill, came down on the V. & T. local train yesterday noon, on its way to Vallejo, where it will again do good service for the fire boys.

The Carson Tribune of last evening says: In order to prove that the Chinese realize the fact that they must go sooner or later, sixty have left Carson for Reno, there to enter the employ of the Nevada & Oregon Narrow Gauge Railroad Company.

ADVERTISED LETTERS.—Following in the list of advertised letters remaining in the Reno, Nevada, Postoffice, July 17, 1886:

Aaron, Jos E	Hale, L J
Cox, Mahala	Harding, E
Dutton, D	Hay, R
Fitzgerald, A L	Morrill, Mrs G M
Gump, B F	Opresta, G S
Glancy, Wm	Thully, Lizzie
Wincelorch, Martha	

ORLANDO EVANS, P. M.

CLOUDBURST.—The cause of the delay of the V. & T. passenger train here Saturday evening was the heaviest rain-storm ever known in Storey county. The rain poured down in torrents, making it hard to distinguish objects at a distance of a hundred feet. Union, Taylor and the streets running east and West were turned into miniature rivers. The debris washed into sewer gratings choked them up and citizens were forced to turn out with shovels and clean the openings in order to keep their places of business and cellars from being flooded. No damage was done on C street, but on B street and other streets higher up on the side of Mount Davidson, first floors of numerous dwellings were flooded and the carpets on them ruined. In Gold Hill the flood was decidedly heavy, fast and furious. The cloud burst heavily against the head of Bullion Ravine. A small barn was washed down with the flood against the upper side of Miners' Union Hall, which, together with the accompanying debris, pressed the whole side of the building in about a foot, and two or three feet of sand and mud covered the floor. The railroad track was also deeply covered, employing a strong force of men to clear it off for the passage of trains. Much damage was done to flumes and roads further down the canyon. Owing to a heavy washout carrying away a portion of the railroad near the Julia mining works, and a slide of the Imperial dump upon the road, the regular Reno express and passenger train did not leave Virginia City until 7 o'clock, yet it made up the time and made connections at Reno with the west-bound passenger train only a little over an hour late.

THE APPEAL'S SULPHUR.—Speaking of the shower of sulphur that the Carson Appeal said covered the ground at the State Prison last week, the Truckee Republican says: The same phenomenon has been witnessed here frequently. Instead, however, of the material being sulphur, it is nothing except the pollen from pine trees. This fine fertilizing substance is present in the atmosphere at this time of the year, and is frequently borne by the winds for a long distance. Of course a heavy shower will precipitate it, sometimes in large quantities. Last Wednesday the surface of Donner Lake was covered with it. Although resembling sulphur, it is strange that any person should mistake it for that substance. Carsonites will know what sulphur is, one of these days.

A NEW PROCESS.—In a newly patented process for reducing refractory silver and gold-bearing ores which contains lead or base metal, sulphur and arsenic, or both, the ores are intimately mixed with carbon and roasted in a crushed state in an open hearth furnace with the aid of a blast of air, preferably hot, blown directly into the mass of ore. The wastes of rums from this furnace are collected in strainers of textile fabric, and the residual roasted mass from the first process is melted, together with the solid matter of the waste fumes and copper basic fluxes, in a low cupola furnace, from which the waste fumes are again collected in strainers of textile fabric as before.

WILL PROBABLY GO EAST.—The Enterprise of Sunday says Rev. Bishop Whitaker will most probably conclude to accept his election to the position of Assistant Bishop of Pennsylvania. Aside from the fact that it is a position of high Church honor accorded to but a favored few, his scope or field of usefulness will be very much enlarged. He has served well in the limited vineyard of the Lord among the sagebrush citizens of Nevada, doing exceptionally good missionary work, therefore, the conferred higher honors in the church fall all the more gracefully upon his shoulders. Everybody in this State wishes the best for him.

PASSENGERS DETAINED.—The heavy trains and a cloud-burst caused a land slide on the railroad about three miles east of Golconda Sunday afternoon, ditching a fruit train East-bound. The passenger train ran near the wreck, and then returned to Winnemucca, where it remained Sunday night. The passengers say that if the train had been on time it would have been ditched by the cloud-burst. No one was hurt. Eight cars were derailed.

RANCH WANTED.—The following letter was received at the Lyon county Times office last week. It explains itself, and any person who may have what the gentleman wants may do well to correspond with him:

ANN ARBOR, Mich., July 11th, 1886.
ED. LYON COUNTY TIMES:—Will you kindly place this in the hands of some person who would be interested to sell me a cattle ranch in your section. I desire to enter into the cattle business, and would like to communicate with some person who would be interested in informing me as to lands, cattle, and the sale of the same in your vicinity. By so doing you will oblige.
Truly Yours, GEO. W. BULLIS.

MOTION FOR NEW TRIAL.—Counsel for plaintiff in the Marzen case, says the Silver State, has moved for a new trial, and the Court has ordered that the plaintiff have until September 1st 1886, in which to prepare, serve and file statements and affidavits on motion for a new trial, and that defendants have thirty days thereafter in which to prepare, serve and file proposed amendments to the same.

STEAM LAUNDRY.—The Steam Laundry is not dead nor sleeping, but is turning out good work daily. Everybody should interest themselves in this institution and help the Directors to get it out of debt by patronizing it with their washing, and while ridding the community of the Chinese will be adding an institution to our town that will keep several persons at work and keep the money paid out for washing at home.

TRAMPS.—Our town is overrun with tramps at present, and not a day passes but what a person passing along our streets is accosted by the stereotyped expression: "Please mister will you be so kind as to assist me to get something to eat?" from some stout, healthy-looking individual, whose breath smells so strong of whiskey that it is liable to make you drunk listening to him. Yesterday one of these sun-burnt individuals stepped into this office and struck the local editor for a nickel—"well, he didn't get it."

The Carson Tribune is going for the Anti-Chinese League, and more especially H. S. Mason, one of the leading business men of Carson, in a very harsh manner, and it looks as though the whole affair was liable to end seriously. "Let us have peace, gentlemen."

The California Legislature.

Dispatches received in San Francisco from Sacramento state that the Legislature can and will elect a United States Senator. Lawyers, both Democrats and Republicans, are unanimous in that opinion. It is not necessary, they claim, for the Governor to include it in his call. The National Constitution imposing it upon them as a duty. It is generally believed that the reprimandists will, at the earliest possible day, seek to force the matter of the election of United States Senator, to the attention of the Legislature, to fight off the discussion of the irrigation Legislation.

GREAT CLEARANCE SALE —OF— MILLINERY GOODS!

For 30 Days Only.

TO THE LADIES OF RENO AND VICINITY:—I take this method of announcing that for the next 30 days I will offer my entire new stock of Millinery Goods (bought for cash and selected with great care) AT PRICES THAT WILL DEFY COMPETITION, and Regardless of cost. Call and examine for yourselves, and be convinced. I mean what I say. THESE GOODS MUST BE SOLD. Satisfaction in style and price guaranteed.

MRS. L. C. HESSEL.
RENO, Nev., June 21, 1886.
